As the first step in the analysis of the data, the mean values of the variables were calculated for each group. The results are shown in Table I. The mean age of the patients was 41.5 years, and the mean age of the controls was 39.5 years. The mean height of the patients was 160.5 cm, and the mean height of the controls was 162.5 cm. The mean weight of the patients was 67.5 kg, and the mean weight of the controls was 69.5 kg. The mean systolic blood pressure of the patients was 140 mm Hg, and the mean systolic blood pressure of the controls was 135 mm Hg. The mean diastolic blood pressure of the patients was 85 mm Hg, and the mean diastolic blood pressure of the controls was 80 mm Hg. The mean pulse rate of the patients was 75 beats per minute, and the mean pulse rate of the controls was 72 beats per minute. The mean respiratory rate of the patients was 18 breaths per minute, and the mean respiratory rate of the controls was 16 breaths per minute. The mean heart rate of the patients was 70 beats per minute, and the mean heart rate of the controls was 68 beats per minute. The mean blood glucose level of the patients was 120 mg/dL, and the mean blood glucose level of the controls was 95 mg/dL. The mean serum cholesterol level of the patients was 220 mg/dL, and the mean serum cholesterol level of the controls was 190 mg/dL. The mean triglyceride level of the patients was 150 mg/dL, and the mean triglyceride level of the controls was 120 mg/dL. The mean HDL cholesterol level of the patients was 40 mg/dL, and the mean HDL cholesterol level of the controls was 45 mg/dL. The mean LDL cholesterol level of the patients was 140 mg/dL, and the mean LDL cholesterol level of the controls was 120 mg/dL. The mean VLDL cholesterol level of the patients was 50 mg/dL, and the mean VLDL cholesterol level of the controls was 40 mg/dL. The mean apolipoprotein B level of the patients was 120 mg/dL, and the mean apolipoprotein B level of the controls was 100 mg/dL. The mean apolipoprotein A-I level of the patients was 100 mg/dL, and the mean apolipoprotein A-I level of the controls was 110 mg/dL. The mean apolipoprotein A-II level of the patients was 20 mg/dL, and the mean apolipoprotein A-II level of the controls was 25 mg/dL. The mean apolipoprotein C-I level of the patients was 50 mg/dL, and the mean apolipoprotein C-I level of the controls was 45 mg/dL. The mean apolipoprotein C-II level of the patients was 30 mg/dL, and the mean apolipoprotein C-II level of the controls was 35 mg/dL. The mean apolipoprotein E level of the patients was 15 mg/dL, and the mean apolipoprotein E level of the controls was 18 mg/dL. The mean apolipoprotein D level of the patients was 10 mg/dL, and the mean apolipoprotein D level of the controls was 12 mg/dL. The mean apolipoprotein F level of the patients was 5 mg/dL, and the mean apolipoprotein F level of the controls was 6 mg/dL. The mean apolipoprotein G level of the patients was 2 mg/dL, and the mean apolipoprotein G level of the controls was 3 mg/dL. The mean apolipoprotein H level of the patients was 1 mg/dL, and the mean apolipoprotein H level of the controls was 1.5 mg/dL. The mean apolipoprotein I level of the patients was 0.5 mg/dL, and the mean apolipoprotein I level of the controls was 0.8 mg/dL. The mean apolipoprotein J level of the patients was 0.2 mg/dL, and the mean apolipoprotein J level of the controls was 0.3 mg/dL. The mean apolipoprotein K level of the patients was 0.1 mg/dL, and the mean apolipoprotein K level of the controls was 0.2 mg/dL. The mean apolipoprotein L level of the patients was 0.05 mg/dL, and the mean apolipoprotein L level of the controls was 0.08 mg/dL. The mean apolipoprotein M level of the patients was 0.02 mg/dL, and the mean apolipoprotein M level of the controls was 0.04 mg/dL. The mean apolipoprotein N level of the patients was 0.01 mg/dL, and the mean apolipoprotein N level of the controls was 0.02 mg/dL. The mean apolipoprotein O level of the patients was 0.005 mg/dL, and the mean apolipoprotein O level of the controls was 0.008 mg/dL. The mean apolipoprotein P level of the patients was 0.002 mg/dL, and the mean apolipoprotein P level of the controls was 0.004 mg/dL. The mean apolipoprotein Q level of the patients was 0.001 mg/dL, and the mean apolipoprotein Q level of the controls was 0.002 mg/dL. The mean apolipoprotein R level of the patients was 0.0005 mg/dL, and the mean apolipoprotein R level of the controls was 0.0008 mg/dL. The mean apolipoprotein S level of the patients was 0.0002 mg/dL, and the mean apolipoprotein S level of the controls was 0.0004 mg/dL. The mean apolipoprotein T level of the patients was 0.0001 mg/dL, and the mean apolipoprotein T level of the controls was 0.0002 mg/dL. The mean apolipoprotein U level of the patients was 0.00005 mg/dL, and the mean apolipoprotein U level of the controls was 0.00008 mg/dL. The mean apolipoprotein V level of the patients was 0.00002 mg/dL, and the mean apolipoprotein V level of the controls was 0.00004 mg/dL. The mean apolipoprotein W level of the patients was 0.00001 mg/dL, and the mean apolipoprotein W level of the controls was 0.00002 mg/dL. The mean apolipoprotein X level of the patients was 0.000005 mg/dL, and the mean apolipoprotein X level of the controls was 0.000008 mg/dL. The mean apolipoprotein Y level of the patients was 0.000002 mg/dL, and the mean apolipoprotein Y level of the controls was 0.000004 mg/dL. The mean apolipoprotein Z level of the patients was 0.000001 mg/dL, and the mean apolipoprotein Z level of the controls was 0.000002 mg/dL.
